

FIND YOUR CLASS LEVEL

What kind of kittens are you ready to save? Use the guide below to determine which kittens you are the best foster home for. Wanting to increase your class level? Contact the National Kitten College for resources and guidance to build your confidence and learn essential skills.

Freshman Class

Freshman fosters will handle healthy kittens that weigh less than two pounds and just need time and love until they are ready for their forever home. Pregnant or Nursing moms are also freshman level fosters.

Sophomore Class

Sophomore fosters will handle kittens that are just being weaned. Kittens who may need daily meds to treat linger URI's etc., and smaller kittens than our freshman fosters. *Rising Sophomores will be able to take healthy bottle babies preparing to wean.*

Junior Class

Junior fosters will handle bottle babies one week and over, be adept and handling a recognizing minor medical issues. They will be able give oral meds and eye drops.

Senior Class

Senior fosters will be able to handle the youngest of bottle babies, they will be able to administer all meds including subcutaneous fluids and they will be able to recognize and stabilize developing medical issues.

Deans List

Fosters on the Deans List will be able to handle all kittens 0-6 weeks. They will also be able to tube feed fading kittens, administer subcutaneous fluids and administer all prescribed medications.
