

WHAT IS KITTEN COLLEGE?

Join The Network.

We're building a compassionate, knowledgeable community of animal lovers, caregivers, and professionals united by a shared goal: *to give every vulnerable kitten a chance to thrive.*

On-Site Training & Ongoing Support

Get practical, on-site training for bottle feeding, seminars, staff support, and case follow-up. Some packages also include custom training resources and a second on-site visit for continued refinement and problem-solving.

Data Collection

Kitten College will analyze your organization's neonatal kitten data to identify trends, diversion "hotspots," and opportunities to better target resources during peak season in your community.

Seeing our fosters reach out with renewed enthusiasm and seeing our partner rescues open up direct lines of communication has been incredible. Collaboration is the true key to saving more lives.

- Diviya Roney, Humane Society of Forsyth County

PARTNER PERKS

Campus Resources

Access medical studies, best practice guidelines, bottle feeding charts, monitor forms, and more resources to share with you staff and foster network.

Partner Acknowledgment

Partners receive a designated logo to showcase their commitment to neonatal kitten support and are featured on Kitten College's nationwide map of kitten lifesavers.

Join Kitten College today!

Submit an application to become a Network Partner for **free**. A representative will be in touch to discuss program options and implementation.

Social Media & Press Support

Partners receive customizable social media assets and press release templates to help announce the launch of their program and recruit and retain fosters.
